

SUPER THERM®

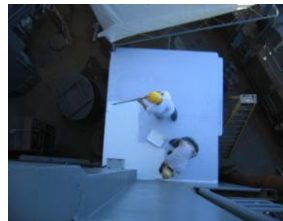

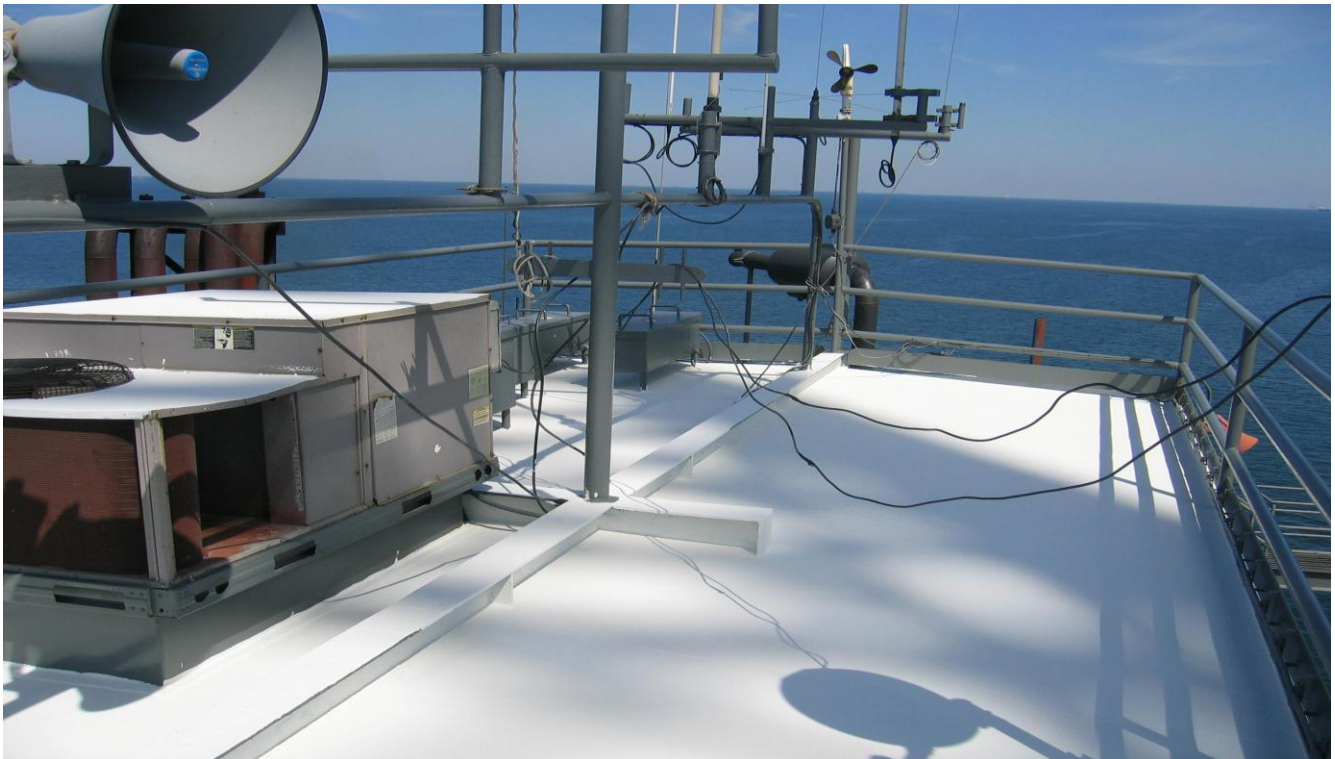

21st Century Solutions for 20th Century Challenges

Rowan Drilling

Cecil Provine Offshore Oil Rig

Super Therm® was applied to the Control Room roof on the Cecil Provine and dropped the surface temperature by 35° (124°F to 89°F).

The Cecil Provine's Welder's Shack was primed with Rust Grip® and topcoated with Super Therm®, which decreased the inside ceiling temperature by 30°F.
